PROFESSIONAL SUMMARY

Computer engineering graduate (ESPRIT, 2025) with hands-on Full Stack development experience gained in the banking sector (Al Baraka Bank), at VERMEG, and through several independent freelance projects. Specialized in Java Spring Boot and Angular, I design and deliver complete web applications, from the backend layer to the user interface. Comfortable with REST APIs, PostgreSQL, Docker and CI/CD pipelines. Rigorous, self-driven and quality-focused.

PROFESSIONAL EXPERIENCE

Full Stack Developer – Final-Year Internship (PFE)

February 2025 – August 2025

Al Baraka Bank Tunisia – Tunis, Tunisia

Technologies: Spring Boot, Angular, PostgreSQL, Power BI, Machine Learning

- Designed and developed a banking application for ATM (cash machine) fleet management, used by branches, the Electronic Banking Division and internal audit/control teams.
- Built an ATM registry, cash loading/unloading logs, and automatic detection of cash surpluses/deficits with reconciliation tracking.
- Implemented an automated alert and reminder system for ATM cash replenishment and incident management.
- Built a predictive Machine Learning model based on historical loading data to optimize cash management planning.
- Created Power BI dashboards for performance monitoring and financial anomaly detection.

Full Stack Developer – Internship

July 2024 – September 2024

VERMEG – Tunis, Tunisia

Technologies: Spring Boot, Angular, Git

- Developed SnagSolving, a collaborative Q&A platform for developers focused on programming languages and technologies.
- Implemented core features: question posting, voting system, real-time discussions, tag-based filtering and user tracking.
- Managed access control and security with Spring Security (RBAC) – Agile/Scrum methodology.

Mobile Developer – Internship

June 2023 – August 2023

OrgaExpert – Tours, France

Technologies: Java, Android Studio, Git

- Developed a mobile application for daycare (crèche) management (Java / Android Studio).
- Optimized performance and improved UX. Collaborated with the team using Git.

FREELANCE EXPERIENCE

Freelance Full Stack Developer – HR Management System

2025

Freelance project – private client, solo developer

Technologies: Django, Angular, PostgreSQL

- Designed and developed a complete HR management system covering attendance and payroll, aimed at automating HR processes previously handled manually.
- Built an attendance tracking module with clock-in/clock-out logging and automatic detection of lateness and absences.
- Automated payroll calculation based on attendance data, reducing manual processing time and errors.
- Built HR dashboards for tracking key metrics (attendance, leave, payroll) for HR managers.
- Delivered full stack development end-to-end and independently: PostgreSQL database modeling, Django REST API, Angular interface and deployment.

EDUCATION

National Engineering Degree in Computer Science

ESPRIT – École Supérieure Privée d'Ingénierie et de Technologies

2020 – 2025

Baccalaureate in Technical Sciences

Lycée Abou Kacem Echabbi – Mahdia

2020

TECHNICAL SKILLS

- **Backend:** Java, Spring Boot, Node.js, Express.js, PHP, Symfony, Laravel, Django, REST APIs
- **Frontend:** Angular, React, TypeScript, JavaScript, HTML5, CSS3
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Testing & QA:** Postman, JUnit, Mockito, SonarQube, Jira, Debugging
- **Tools & DevOps:** Git, GitLab, Docker, Jenkins, SonarQube, Grafana, Power BI
- **Other:** Machine Learning (basics), CI/CD, Agile (Scrum), MVC, multi-tenant architecture

ACADEMIC PROJECTS

MetaMatch Platform – *Angular, Express.js, MongoDB*

- Sports management platform: performance tracking, task management, personalized training plans.

Smart Educational Platform – *Django, Angular, PostgreSQL*

- AI-based recommendation system, student performance tracking, personalized notifications.

CI/CD Pipeline (DevOps) – *Spring Boot, Jenkins, Docker*

- CI/CD pipelines, JUnit/Mockito testing, SonarQube code analysis, Grafana & Prometheus monitoring.

Play Zone – *Java, Symfony*

- Sports facility booking system, event and equipment management.

LANGUAGES

- **Arabic:** Native / Fluent
- **French:** Professional
- **English:** Professional
- **Spanish:** Basic
